Dr. J. W. MAGUIRE.

SPECIALIST

Diseases of Eye, Ear, and Throat.

Glasses Scientifically Adjusted. Office in Masonic Temple, Hutchinson, Kansas.

LOCAL INCIDENTS.

Bring your job work to this office.

John Cramer, of Huntsville, was a caller at this office, Tuesday.

J. M. Forker of Haven, is one of the men who are foolish enough to get out chasing the sheriff's office.

The editor of the Sylvia Sun is evidently suspicious of candidates. In soliciting their cards of announcement they are asked to pay in advance.

P. Martin has just returned from an extended trip to the eastern markets where he bought extensively for his big store here and a branch at Grand Island.

H. Pierce is in Ness county trying a criminal case. He is defending a man who is charged with feeding ground glass to another man's cattle. Quite a large number of the cattle had died.

A soldier boy named Walter H. Sims, who formerly lived in this city, has arrived here again to make his home, after four years service in the Philippines. He first enlisted as a volunteer regiment, afterward enlisting in the regular army.

T. G. Elbury has again announced himself as a candidate for county surveyor, subject to the republican county nominating convention. Mr. Elbury has already served three or four terms, but that does not keep him from wanting it again.

Professor E. B. Smith, of the Nickerson Normal college, has been selected as one of three judges on the jury, by the Kansas State Oratorical Association. The state oratorical contest will take place at Winfield, March 7th.—Nickerson Argosy.

Amos Plank, the jeweler, has a small clock in his store window that runs four hundred days. This is considerable more than a year and is probably about as near perpetual motion as has yet been attained. But that is a good deal short of "forever."

A. J. Tyler, who was the opponent of John A. Myers as a candidate for county commissioner the last time he was elected, has just returned from a trip to California. He says also that he is home to stay, and that there is no place like Reno county.

The remains of a man by the name of Wilson were shipped here from Wellington, Monday and interred in Eastside cemetery, under Masonic rites and ceremonies, which was according to a request made by him to his home lodge and by them to the lodge here.

At a meeting of the Kansas underwriters held in Topeka the latter part of last week, J. A. Fonton of this city was elected chairman of the executive committee, and Hon. John Kinkel, secretary. At this rate Hutchinson will soon be overburdened with honors.

One of the applicants for a marriage license this week, was a woman. It is not often that the "bride" prospective calls upon the probate judge in person and asks for a license to marry. But as in this case she was the older of the two contracting parties, perhaps she considers herself the senior member of the firm in all respects.

The members of the Fraternal Aid association gave a farewell reception

to their old treasurer, Mr. S. E. Hoopes, who is about to leave for a new home in the state of Washington. Mr. Hoopes was also secretary of the local association one term. He was considered one of their best working members.

Joe Talbot's grocery store will soon move and then Hostutler & Bussinger, the clothiers will occupy the room after it is fixed up and remodeled. They will probably be compelled to open up some of their spring stock however before moving, as that can not be done earlier than the middle of the month and perhaps later.

Wesley Lackey, a young man sixteen or seventeen years of age who lived about nine miles north of this city, died at the home of his uncle, Henry Wilson, on First Avenue East on Sunday night. He had suffered long and with great patience from paralysis, and the cutting short of a young life so full of hope and promise is greatly deplored.

To read of the tales of needy families that appear in the News it makes our wonderful and awful prosperity seem a good deal like a burlesque. A great many donations have been made, and no doubt many needy families have been relieved, but every day or two a new family is mentioned that needs and deserves assistance. Our prosperity, under the present industrial arrangement, is a thing that hits a few mighty hard.

Chairman George Pitts of the democratic congressional committee of the Seventh district, and Will Ayres, chairman of the populist committee of this district have called meetings of their respective committees to be held in this city on March 5th. The meeting of the farmers who are interested in the co-operative grain dealing business will be in session at the same time, and all taken together should bring a good crowd to this city at that time.

The two W. C. T. U. societies of this city are preparing for a special service, to be called Francis Willard Heavenly Birthday service, which will be held at the M. E. church at 3 o'clock in the afternoon. Three young ladies, Misses Maude Carey, Cree Morse and Alice Hammer will read papers on the life works and accomplishments of Miss Willard, and they will be followed by platform address from the ministers of the city. The program will also be interspersed with appropriate music selections.

The Hutchinson bowling team made another effort Saturday, to get the trophy away from Wichita. But the effort was again a vain one. The Hutchinson team started out in bad shape, being two men short. Doc Comstock who went with them took the place of one of them, and the other was graciously supplied by their hosts. They were beaten, but the scores were better than at the last game played here. After the game was over the Hutchinson boys were given a fine dinner at one of the popular hotels.

The play "An Enemy to the Queen", which was on the boards Tuesday night, was a play worthy of the attention of anyone who loves the play. It was a good play in the hands of good players. It was a heavy play by Victor Hugo and was handled much better than such plays are usually done by repertoire companies. The house was not nearly so good as the play deserved. It seems that for some reason some of the best plays do not receive the patronage they deserve, while some of mediocrity get crowded houses.

A jury was summoned before the probate judge Monday to determine upon the sanity of Marion M. Forney, of this city. Mr. Forney is a single man, thirty-five years of age, the son of A. M. Forney, of Seventh Street West. The unfortunate man has been in very bad health for a long time and his physical afflictions af-

fected his mind till it resulted in the verdict that he should be sent to an asylum for the insane. He will be taken away as soon as the necessary arrangements can be made with the authorities at the asylums.

The Redmen of this city were very active on last Saturday, celebrating Washington's birthday. In the afternoon quite a number, probably twenty, of the bucks, togged out in their feathers and war paint and paraded down Main Street. They filed along "one in a gang" "injun" fashion and were followed by a few squaws. They attracted much attention, and made considerable lively guessing as to what it all meant. In the evening there was a grand feast in the wigwam and no doubt there was dog in abundance, stewed, fried and boiled.

The first through passenger train on the Rock Island over the new "short line" will go through Hutchinson very early Sunday morning. This train will leave Kansas City at a trifle before ten o'clock the night before. The time card is not yet issued and the arrangement and time of the trains as they run through Hutchinson is not known. The new arrangement however, will be a great benefit to the people of the southwest part of the county and counties adjoining on the southwest, who come to Hutchinson to trade. With several trains running each way each day it should increase Hutchinson's trade in no small measure.

The undersigned would like to exchange his home place on Tenth Street East for other property in a distant suburban part of the city, or sell the home property for cash.

O. S. Coffin and Wife.

GETTING READY.

Barlow Farmers are Waiting Till After the Big Meeting.

The Barlow farmers have not yet commenced formally to take subscriptions of stock for their co-operative elevator company, but they report that they have canvassed the matter with a sufficient number of the farmers to know just where to go to get the subscriptions, and think they will have no difficulty in securing subscriptions for any amount they are likely to want. They are waiting now to hear from those that have already commenced operations when they are here to attend the big meeting on March 4th and 5th. They hope to be able to derive benefit from the experiences of others that have pioneered the way.

They contemplate organizing with a capital stock of twenty-five hundred dollars, and of this amount probably fifteen or eighteen hundred dollars will be used in building an elevator. They do not want an elevator large enough to furnish capacity for storing grain, for they only want to be in shape to ship, and absolutely forbid anything like speculation.

DEAD IN THE SNOW.

Young Man Near Castleton Falls Dead in His Feed Yard.

A young man by the name of Sam Hayes who lived a few miles northwest of Castleton, was found dead in his feed yard, his body partially covered by snow, last week, Wednesday. He was a young man of about thirty years of age, and lived alone. His uncle who lived near Castleton, concluded to call and see him on his way home from town, and not finding him about, he was attracted by his dog's strange actions. It required but a little search to find the body where the dogs had watched over it faithfully. He had apparently been dead for many hours. The body was examined for marks of violence, but none were found, and as he was known to be troubled with heart disease, it was concluded that he had simply fallen dead while feeding his stock. The funeral was held the next day.

Samuel Hayes was a native of Ireland, but came here several years ago and located near his uncle.

To Help Housewives.

Major Edward, the inventor, of Pretty Prairie, has brought out an invention that is something new entirely. It is also something that will be hailed with delight by the housewives of the country if it is what is claimed for it. It is a bread kneader. His wife complained of the hard work of mixing bread, and being able to support a luxury that few other women of Kansas or any other state do—an inventor for a husband, he was set to work to overcome her troubles. In a few weeks he had perfected a little device which is said to work to perfection. Just what the motive power is and how it is to be applied, is not learned. Major Edward has invented several machines that are now on the market and have proved successful, one of which is the wind stacker attached to threshing machines.

Subscribe for the Gazette, the best paper in the county.

Fantastic stories have been written of magic mirrors in which the future was revealed. If such a thing were possible many a bright-faced bride would shrink from the revelation of herself, stripped of all her loveliness. If there is one thing which would make a woman shrink from marriage it is to see the rapid physical deterioration which comes to so many wives. The cause is generally due to womanly diseases.

Lost health and lost comeliness are restored by the use of Dr. Pierce's Favorite Prescription. It cures irregularity and dries weakening drains. It heals inflammation and ulceration, and cures female weakness.

"It is with the greatest pleasure that I tell you what Dr. Pierce's Favorite Prescription and Golden Medical Discovery have done for me," writes Mrs. Emma L. Banks, of 192 North 7th Street, Harrisburg, Pa. "They have done me a world of good. I had female weakness for six years; sometimes would feel so badly I did not know what to do, but I found relief at last, thanks to Dr. Pierce for his kind advice. I have this medicine still in my house and will always keep it."

If you are led to the purchase of "Favorite Prescription" because of its remarkable cures of other women, do not accept a substitute which has none of these cures to its credit.

Free. Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Or for cloth-bound volume send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Commoner.

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equalled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; his review of political events as they arise from time to time can not fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the GAZETTE together for one year for \$1.15. The regular subscription price of the two papers when subscribed for separately is \$1.50.

This is the important season of the year for the reading farmer—the farmer who succeeds in his business. Now is the season when the year's business is summed up; when the great shows and sales of live stock are held; when farmers' institutes and boards of agriculture are in session; when the farm paper takes the place of what the active farmer has missed getting in his younger days at the agricultural colleges; when each farm in the West becomes, through his farm paper, an experiment station to him; when the experiences of others are brought together in the paper for his profit without expense. Now is the time when the wide-awake farmer can read and think, and upon his reading and thinking will depend his success. The "old reliable" Kansas Farmer is full of good reading and abundant food for thought, and we are now able to offer it to our readers at club rates with the GAZETTE for 85 cents for both papers. This is vastly cheaper than being without it and it will show profits in next season's crops. Try it and see.

Only \$45 California and Back

First class round trip, open to everybody, \$45, from Hutchinson to Los Angeles and San Francisco, via the Santa Fe. Corresponding rates from all points east.

Account National Convention, Federation of Women's Clubs. On sale April 22 to 27. Ticket good for return until June 25. Only line under one management all the way from Chicago to California.
